Acorn Pocket Book

Connects the Acorn Pocket Book with Acorn 32-bit computers.

The Acorn Pocket Book A-Link allows you to transfer data between your Pocket Book and your Acorn 32-bit computer. The software provided* is fully integrated into the RISC OS environment which makes it easy-to-use.

The Acorn Pocket Book A-Link consists of:

- An RS232 interface for your Pocket Book
- Software for your Acorn 32-bit computer (supplied on 3.5" disc)
- User Guide

*Note RISC OS 3 (Version 3.1 or later) is required to run this software; upgrades are available separately.
